## Inside Voices

Releasing March 4th

Redshift Headlights is the latest musical incarnation of Stephen Michael McCabe, formerly of The Willis, Congratulations on your Decision to Become a Pilot, and Cookie Bug. In 2009, The Willis performed on NBC's Late Night with Jimmy Fallon.

A veteran midwest dive-bar indie rocker, McCabe also has a PhD in literature and creative writing and currently teaches at the University of Wisconsin-Oshkosh.

### INSIDE VOICES, THE ALBUM:

A response to these troubling times and anxiety about American identity, Inside Voices is an earthy, beautiful, orchestrally-textured indie folk rock album that introduces 10 different characters with 10 different backgrounds, each living through their own part of our united American life story.

About Congratulations on Your Decision to Become a Pilot - Alternative Press

"From the super-grungy first track to the epic seven-minute closing track, Congratulations On Your Decision To Become A Pilot this album was nearly flawless. It's still one of my favorite albums to this day."

Scott Heisel, Alternative Press

About Congratulations on Your Decision to Become a Pilot - Pitchfork

"...potential greatness. For a band that only formed in August of 1999 and has already experienced a lineup change, this is some pretty impressive material. Most groups don't get this much right by their third album.

Pitchfork. Score: 8.2

About The Willis - The Dallas Observer

Bathtub, Lightbulb, Heartattack. rocks viciously, presenting its nerdish sentiments as unapologetic slabs of arty punk, like some mutant melding of XTC and X.

Darryl Smyers, The Dallas Observer
